

K-Love serves me in my local community by providing wholesome, entertaining, and enjoyable music for me and my family to listen to. K-Love helps our community by providing an alternative to other radio stations that don't have faith-based messages. They also help to sponsor events in our local area that are enjoyable to attend. I think K-Love serves the public interest and therefore request that you don't over power our local K-Love stations at 89.9, 96.3, and 104.3 with Low Power FM. Thanks for taking my comments!
